SCUDO

PROFESSIONAL STYLE.

There's a big difference between working and working in style, and it's called the Fiat Scudo. Dependable, powerful and nimble, the Scudo makes an impressive calling card and projects a truly professional image.

From the front, innovative, eye catching light clusters, a streamlined bonnet and wraparound bumper hint at dynamic prowess, efficiency and strength. Deep side mouldings complement the Scudo's balanced, sturdy proportions. At the rear, clean, square lines maximise space for goods or passenger comfort. In passenger carrying models, huge, smooth areas of glass create a bright interior, while enhancing the distinguished exterior design.

Satellite navigation is an option, with colour map.

A refrigerated storage compartment is an option available with climate control.

A PERFECT PLACE TO WORK.

For early starts and long days, you need the comfort, quality and equipment of the Fiat Scudo. The driving position has been carefully created with ergonomically designed seat, backrest and height adjustment, height and reach adjustable steering wheel, fascia mounted gear lever and crystal clear instruments.

A host of standard and optional technology helps to make your day run smoothly, including electric folding wing mirrors, parking sensors, cruise control, automatic lights and rain sensitive wipers. Making phone calls is safe and easy thanks to a Bluetooth® hands-free system. You can operate a mobile using steering wheel mounted controls and the Scudo's audio system, while numbers and text messages can be quickly read on the multipurpose fascia display. This clear source of information also provides date, time, exterior temperature, radio functions, and messages from the on-board computer.

Three spacious compartments can be found in the ceiling.

Depending on trim level, there can be two fold out cup holders on the driver and passenger sides.

A four dial instrument cluster feature graphics on a black background for ultimate legibility.

Smooth, precise gearboxes come in five and six speed versions, depending on the engine.

The cabin can be specified with two single seats, or with a driver's seat and two-seat bench.

Grey trim not available in UK

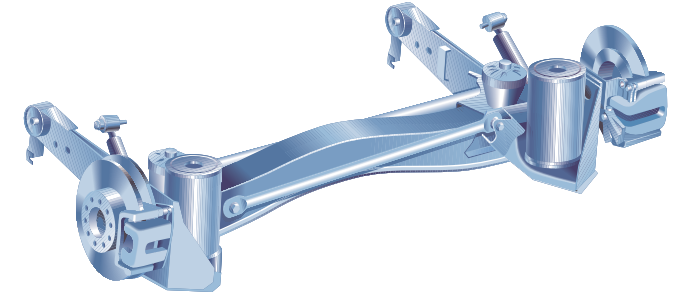

THE VERSATILE PROFESSIONAL.

Choose between panelled or glazed models, short or long wheelbases, two interior lengths, high or standard roof, load spaces of 5, 6, or 7 m³ with two or three seats, mechanical or air suspension, double cargo doors or a tailgate...there are endless configurations that make the Scudo incredibly versatile and precisely tailored to your working needs.

A control in the load compartment lets you raise and lower the loading height.

Air suspension lowers the loading floor for easy cargo handling and loading, but it also offers maximum comfort for passengers and better stability, even when your load is stowed unevenly.

MAKING LIGHT OF YOUR LOAD.

The Scudo makes handling and loading packages of every shape and size effortless, because with air suspension fitted, the cargo floor is just 495mm from the ground. An optional feature with air suspension lowers the vehicle when stopped by a further 50mm, at the touch of a button in the load space.

SCUDO VAN. WHERE BUSINESS GROWS.

With 5m³ of cargo space in the short wheelbase version, 6m³ in long wheelbase models, 7m³ in the Maxi van with long wheelbase and high roof, and payloads between 1000 and 1200kg, the Scudo is a benchmark for load capacity. The space is equipped with eight cargo retaining hooks, and can be accessed through the sliding side door or the full height double hinged rear door, which can be glazed as an option. With the side door providing a 92.4cm opening and the rear opening to a full 180 degrees, you can use every last centimetre of room for easy loading and storage.

Load bay volume
5-6-7 m³

SCUDO COMBI. THE BALANCE YOU NEED.

Easy to load and great to travel in, the Scudo Combi offers a flexible balance of style, comfort and functionality. The range lets you choose a model that fits your business precisely. There are short and long wheelbases, a 5/6 seater with a very large load area, and an 8/9 seater for serious passenger carrying plus ample luggage room. Ingenious design means that you can totally remove seats or, as an option, fold seats to shape and reshape the interior for every task. Welcome to the made-to-measure Scudo Combi!

TRAVEL IN COMFORT, ARRIVE IN STYLE.

Stylish and extremely accommodating, the Scudo Panorama is the no-compromise MPV. It's perfect for leisure pursuits or reflecting the right image for your company. Six individual fresh air nozzles and lights are fitted into the ceiling above second and third row seats for personal comfort. In the long wheelbase version, an amazing 5.84m² of glass provides superb visibility for the driver and great views for everyone else. Rear seats are set slightly higher so that passengers enjoy the same commanding vista as those in front, plus the whole environment, from the carpeted floor upwards, has a quality feel.

For your free time, the Scudo Panorama Family fits in beautifully with the demands of family and friends, keeping everyone safe and comfortable. Select the Scudo that matches your personal needs by choosing 5/6 seats or 8/9 seats, and relax with standard automatic climate control. As a further option, you can specify an extra climate control system for rear passengers. When it comes to serious business, the Scudo Panorama is also ideal transport for hotels, airlines or any company wishing to present an efficient, elegant image.

9 seat option on Panorama Family not available.

The Scudo Panorama long wheelbase can be specified with 5 or 8 seats. Second and third row seats can be folded, double folded or totally removed to make room for as much luggage as you need to carry. All rear passenger seats are equipped with upholstered headrests and three point seat belts, while lateral seats have an Isofix attachment for child seats.

Generous storage space includes compartments in the doors and under the front seats, while the fascia and lateral panel incorporate two cup holders. There are also nets for small belongings on the seat backs. Throughout the interior you will find details and features that add to the air of refinement and comfort.

The Scudo Combi offers 5/6 or 8/9 seat formats. Every seat is smartly upholstered.

Number of seats

EASY AROUND TOWN, EFFORTLESS ON LONG JOURNEYS.

Three engine options each deliver sparkling performance, refinement and responses. Tough and reliable, they make the Scudo comfortable, economical and environmentally friendly. The 90 MultiJet and 120 MultiJet give you a balance of flexible performance and low running costs, while the 140 MultiJet provides 136 bhp of smooth power on demand.

Maintenance programme

Tailgate only available on Combi and Panorama versions.

Seatbelts can be fitted with pretensioner and load limiter.

Powerful ventilated front disc brakes.

Wing mirrors feature a double parabola, giving optimum visibility and control. As an option, electric folding mirrors can be fitted. (Panorama version have single parabola wing mirrors.)

SERIOUSLY SAFE.

Studies, research, road tests and crash tests have all helped to make the Scudo uncompromisingly safe, with the latest solutions and technology providing leading edge protection for occupants. All passengers are fully protected by a rigid safety cell and programmed crumple zones front and rear.

Active safety is exceptional, thanks to a very stiff bodyshell and sophisticated suspension for stability in all conditions. Optional ESP will enhance stability further still, by preventing loss of grip, while braking is failsafe with standard ABS and EBD. An additional standard feature on the Scudo is HBA, a system that boosts braking force in an emergency.

Every seat is equipped with an adjustable head restraint and three-point seatbelt and every model has a driver's airbag as standard. Front row passenger airbags can be fitted to both single seat and bench seat versions, and other options include side airbags and window bags for front and rear. Apart from the window bags, all these airbag options are standard on Panorama models.
